

INFORMATION

Coronavirus - Covid-19

Dear Partners, Dear Doctors, Dear Friends,

The worldwide spread of Covid-19 is now affecting us and has led to extreme containment measures. Our main concern is to limit the spread of the virus and ensure the health and safety of all.

The French government recently officialised the transition into level 3 of the Covid-19/Coronavirus pandemic and announced the implementation of key actions to limit its effects.

Based on the recommendations and advice of competent health and governmental authorities, in France and other countries where Laboratoires VIVACY employees and products are present, precautionary and prevention methods have been taken:

- The adaptation of dedicated resources and working methods to better manage the issues linked to the Coronavirus/Covid-19 risk.
- The respect of instructions given by the French and local health authorities, as well as the recommendations from the World Health Organisation (WHO) for our collaborators and stakeholders.

Our production site, which as you know is based in Archamps, France (Haute-Savoie), already follows in normal circumstances the highest security and quality criteria, implementing guidelines and advanced control procedures based on protocols set out by National and International regulations.

In this context, and thanks to the engagement of our team, Laboratoires VIVACY has put in place procedures which will allow for continued production and logistic activities on the Archamps industrial site, carried out in strict observance of the new governmental measures.

The health of all is our main priority, Laboratoires VIVACY will ensure the constant adaptation of their procedures in order to guarantee the security of our different partners, centred on the evolution of the health situation in different areas of the World.

INFORMATION

Coronavirus - Covid-19

During this period, we should continue to communicate with one another to better adapt to the situation, and if possible, resist this invisible threat that is present more than ever.

All the collaborators at Laboratoires VIVACY, more specifically your regular commercial contacts, and with the support of the Executive Management, are at your service to manage any specific requests you may have.

All the departments are functional through a Home Office setup (Executive management, Sales, Marketing, Administration, Logistics, Regulatory, etc.).

Laboratoires VIVACY would specifically like to thank you for the confidence you have placed in us for all these years.

Together and thanks to you, we have shared memorable moments of conviviality and interaction with Doctors from around the globe.

Over the next few weeks, we will be at your side, stronger than ever, to overcome this unprecedented health crisis.

Take good care of yourself and your loved ones.

Warm regards,

Waldemar Kita
Chairman

Michel Cheron
CEO
